

Ignition unit

➤ General description

Enables controlled and remote energy activating the electronic starter, in a quick and safely way. Includes: ignition unit AT-096N, cable (AT-098N), 5 crocodile clips (AT-099N), battery charger and bag carrier.

➤ Technical data

Reference	AT-100N
Power supply:	Lead acid battery 6V 7Ah
DC Voltage:	6V DC
Battery charge:	12-36V DC 500 mA
Battery life:	+100 soldaduras. 10h. Carga completa de la batería
Battery charging time:	10 hours
Dimensions:	216x180x102mm
Weight:	2.300 g
Cable dimensions:	2 x 1,5 x 1.500mm
Total weight:	3.500 g
Working temperature:	-10°C to 60°C
