#### Connections/ Terminals

#### type of electrical connection

- for main current circuit
- for control circuit

#### width of connection bar maximum

## wire length for thermistor connection

- with conductor cross-section = 0.5 mm² maximum
- with conductor cross-section = 1.5 mm<sup>2</sup> maximum
- with conductor cross-section = 2.5 mm<sup>2</sup> maximum

#### type of connectable conductor cross-sections

- for main contacts for box terminal using the front clamping point solid
- for main contacts for box terminal using the front clamping point finely stranded with core end processing
- for main contacts for box terminal using the front clamping point finely stranded without core end processing
- for main contacts for box terminal using the front clamping point stranded
- at AWG cables for main contacts for box terminal using the front clamping point
- for main contacts for box terminal using the back clamping point solid
- at AWG cables for main contacts for box terminal using the back clamping point
- for main contacts for box terminal using both clamping points solid
- for main contacts for box terminal using both clamping points finely stranded with core end processing
- for main contacts for box terminal using both clamping points finely stranded without core end processing
- for main contacts for box terminal using both clamping points stranded
- for main contacts for box terminal using the back clamping point finely stranded with core end processing
- for main contacts for box terminal using the back clamping point finely stranded without core end processing
- for main contacts for box terminal using the back clamping point stranded

# type of connectable conductor cross-sections

- at AWG cables for main current circuit solid
- for DIN cable lug for main contacts stranded
- for DIN cable lug for main contacts finely stranded

## type of connectable conductor cross-sections

- for control circuit solid
- for control circuit finely stranded with core end processing
- at AWG cables for control circuit solid

### wire length

- between soft starter and motor maximum
- at the digital inputs at AC maximum

## tightening torque

- for main contacts with screw-type terminals
- for auxiliary and control contacts with screw-type terminals

## tightening torque [lbf·in]

• for main contacts with screw-type terminals
