444 meters = 1 rack

Gross weight	844 kg				
Min. Quantity	444.00 m	Max. Quantity	444.00 m		

Tender Text

GRP cover for cable tray/ladder, pressed, with moulded lug to reduce deflection at the cover joint, protection against ingress of dirt as well as increasing stability with the adjacent cover, halogen-free.

The fastening can be done with cover clamps DF ... E4 in the cable tray system K² and in the cable ladder system UL with cover clamps DF... E4, cover fastenings DFUB 5.5X19 E4 or DF M, 2 pieces per metre (please order separately). Due to external influences, e.g. wind loads, the number of cover retaining springs or cover fixings must be increased.

To ensure proper and stable installation, make sure that the joints of the covers have a minimum distance of 8 mm and are arranged offset to the joint of the cable trays/cable ladders.

Article available in various resin mixtures.
